13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

ConocoPhillips Company respectfully request to change the recipe of the cement for the tail slurry of the production casing cement program for the Warren Unit #344.

The original recipe called for 2% Bentonite, ConocoPhillips request it to be replaced with 5 lb/sk LCM/extender. All other ingredients are to stay the same.

Replacing 2% Bentonite with 5 lb/sk LCM/extender is simpler, requires less water than Bentonite and has characteristics that show it to be a superior cement for the Warren Unit program.

Please see attachments

14. I hereby certify that the foregoing is true and correct.	
Electronic Submission #121052 verified by the BLM Well Information System For CONOCOPHILLIPS COMPANY, sent to the Hobbs Committed to AFMSS for processing by DEBORAH MCKINNEY on 10/24/2011 (12DLM0032SE)
