13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

ConocoPhillips is respectfully requesting permission to perforate the Drinkard formation and complete the Drinkard formation with previous approved Blinebry-Tubb formation during the initial completion of the well.

As you are aware, COPC is in the proces of obtaining State of New Mexico approval for a redesignation of the Blinebry/Tubb/Drinkard pools within the Warren Unit. COPC has been advised the hearing date for such redesignation is November 10, (case #14761). The BLM has previously advised that in addition to a redesignation of the BT pools, that a consolidation of the BT and Drinkard PA's would need to be submitted/approved before COPC could frac and commingle the BT with the Drinkard formation.

The Warren Unit #348 is sceduled for frac November 7th, 2011. COPC is concerned that the

Additional data for EC transaction #120948 that would not fit on the form

32. Additional remarks, continued

anticipated frac date, the impending State approvals of the BTD pool redesignation and the BLM approvals of the BTD PA consolidation are each independent actions all of which are in process simultaneously. It is unlikely that the aforementioned State and BLM approvals will be obtained before the fracing procedure is commenced.

COPC is aware that a NOI sundry request must be submitted to obtain advanced approval for any change in the type of well or completion pool, including perforating the drinkard formation. Once the BTD pool and PA consolidations are received/approved, COPC will coordinate with all regulatory agencies to insure production reporting/accounting is submitted under the proper Agency/OGARD serial numbers.
