

STATE OF NEW MEXICO  
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT  
OIL CONSERVATION DIVISION

NMOCD - ACO-274

IN THE MATTER OF EOR OPERATING COMPANY,

Respondent.

AGREED COMPLIANCE ORDER

Pursuant to the New Mexico Oil and Gas Act, NMSA 1978, Sections 70-2-1 through 70-2-38, as amended ("Act") and OCD Rule 19.15.5.10(E) NMAC, the Director of the Oil Conservation Division ("OCD") and EOR Operating Company ("EOR" or "Operator") enter into this Agreed Compliance Order ("Order" or "ACO") under which Operator agrees to plug, place on approved temporary abandonment status or restore to production or other beneficial use four herein identified wells pursuant to the Act and OCD Rule 19.15.25.8 NMAC in accordance with the following agreed schedule and procedures

FINDINGS

1. The OCD is the state division charged with administration and enforcement of the Act, and rules and orders adopted pursuant to the Act.
2. Operator is a corporation operating wells in the state of New Mexico under OGRID 257420.
3. Operator's business plans in the next six months include recompleting horizontal wells in the Milnesand Unit, seeking an injection permit for the Crossroads Siluro Devonian Unit #105 (30-025-23472) and/or Crossroads Siluro Devonian Unit #106 (30-025-24143), and plugging back the Crossroads Siluro Devonian Unit #102 (30-025-03630) from the Devonian zone to produce from the Mississippian zone.
4. If an operator is out of compliance with 19.15.5.9 NMAC, the OCD may deny applications for permits to drill, 19.15.14.10 NMAC, and must deny applications for permits to inject. 19.15.26.8 NMAC.
5. Operator is currently out of compliance with 19.15.5.9.A(4) NMAC because it has too many wells out of compliance with 19.15.25.8 NMAC (the inactive well rule) that are not subject to an agreed compliance order setting a schedule for bringing the wells into compliance with the inactive well rule and imposing sanctions if the schedule is not met. See 19.15.5.9(A)(4) NMAC.

ACO  
EOR Operating Company OGRID 257420  
Page 1 of 7

OCT 27 2011

6. As an operator of 93 wells, to be in compliance with 19.15.5.9.A(4) NMAC, Operator may have no more than 2 wells out of compliance with the inactive well rule. According to the inactive well list kept pursuant to 19.15.5.9(F) NMAC, Operator has 30 wells out of compliance with the inactive well rule. A copy of Operator's inactive well list as of October 5, 2011 is attached as Exhibit "A."
7. According to Exhibit "A," Operator operates 5 wells that have been inactive for over 20 years.
8. Operator has represented to the OCD that it needs additional production wells and an injection wells to bring in more cash flow and wells into compliance.

### CONCLUSIONS

1. The OCD has jurisdiction over the parties and subject matter in this proceeding.
2. The wells identified in Exhibit "A" are out of compliance with OCD Rule 19.15.25.8 NMAC.
3. As operator of the wells identified in Exhibit "A," Operator is responsible for bringing those wells into compliance with OCD Rule 19.15.25.8 NMAC.
4. The OCD and the Operator enter into this Order so that Operator may obtain drilling permits for wells it plans to recomplete horizontally in the Milnesand Unit, injection permits for the Crossroads Siluro Devonian Unit #105 (30-025-23472) and/or Crossroads Siluro Devonian Unit #106 (30-025-24143), and a drilling permit to plug back the Crossroads Siluro Devonian Unit #102 (30-025-03630), while working to return its inactive wells to compliance.

### ORDER

1. Operator agrees to bring the Milnesand Unit #152 (30-041-00010), Milnesand Unit #197 (30-041-00140), Milnesand Unit #510 (30-041-00259), and Milnesand Unit #516 (30-041-10208) from Exhibit "A" into compliance with OCD Rule 19.15.25.8 NMAC by April 17, 2012 by
  - (a) restoring the well to oil or gas production or other OCD-approved beneficial use and filing a C-115 documenting such production or use;
  - (b) causing the wellbore to be plugged in accordance with OCD Rule 19.15.25.10(B) NMAC and filing a C-103 describing the completed work; or
  - (c) placing the well on approved temporary abandonment status in accordance with OCD Rule 19.15.25.12 NMAC through 19.15.25.14 NMAC.
2. Swabbing is not "production" or "beneficial use" for purposes of this Order.

3. Operator shall file a compliance report identifying each well returned to compliance, stating the date it was returned to compliance and describing how the well was returned to compliance (restored to production or other approved beneficial use, plugged wellbore, or approved temporary abandonment status). The written compliance report must be mailed or e-mailed to the OCD's Enforcement and Compliance Manager and to the OCD attorney in charge of inactive well agreed compliance orders so that it is received by the compliance deadline of April 17, 2012.
4. This Order shall be considered an "Inactive Well Agreed Compliance Order" under 19.15.5.9(F)(1)(c) NMAC for the limited purpose of removing the wells identified in Exhibit "A" from consideration in determining compliance with 19.15.5.9(A)(4) NMAC for:
  - Applications for permits to recomplete the following wells in the Milnesand Unit.
    - Milnesand Unit #123 (30-041-00030)
    - Milnesand Unit #141 (30-041-00050)
    - Milnesand Unit #521 (30-041-20466)
    - Milnesand Unit #522 (30-041-20647)
    - Milnesand Unit #524 (30-041-20649);
  - Applications for permits to inject into the:
    - Crossroads Siluro Devonian Unit #105 (30-025-23472)
    - Crossroads Siluro Devonian Unit #106 (30-025-24143); and
  - Application for permit to plugback the Crossroads Siluro Devonian Unit #102 (30-025-03630)
5. This Order shall not be considered an "Inactive Well Agreed Compliance Order" under 19.15.5.9(F)(1)(c) NMAC for any other purpose, and the wells identified in Exhibit "A" shall not be removed from the inactive well list kept pursuant to 19.15.5.9(F) NMAC.
6. This Order shall expire April 17, 2012.
7. Operator may negotiate with the OCD for an agreed compliance order to take effect when this Order expires. It will be within the OCD's discretion whether to enter into an agreed compliance order with Operator. Factors in the OCD's determination shall include:
  - Operator's compliance with OCD financial assurance requirements;
  - Operator's compliance with the terms of this Agreed Compliance Order, including whether Operator successfully returned the four wells identified in Ordering Paragraph No. 1 to compliance by April 17, 2012, filed the necessary paperwork to document that compliance, and filed a timely compliance report;

- Whether Operator returned additional wells to compliance beyond those required under the terms of this Order;
  - Whether Operator prevented wells from falling out of compliance with the inactive well rule during the time period covered by this Order; and
  - Whether Operator proposes an acceptable plan for returning its inactive wells to compliance.
8. Operator understands that if it fails to meet the terms of this Order it is unlikely that the OCD will enter into further agreed compliance orders with Operator for inactive wells.
9. By signing this Order, Operator expressly:
- (a) acknowledges the correctness of the Findings and Conclusions set forth in this Order;
  - (b) agrees that by April 17, 2012, it will
    - Return the Milnesand Unit #152 (30-041-00010), Milnesand Unit #197 (30-041-00140), Milnesand Unit #510 (30-041-00259), and Milnesand Unit #516 (30-041-10208) to compliance as defined in this Order;
    - File the appropriate paperwork to document the compliance; and
    - Submit a written compliance report; and
  - (c) waives any right, pursuant to the Oil and Gas Act or otherwise, to an appeal from this Order, or to a hearing either prior to or subsequent to the entry of this Order.
10. The OCD reserves the right to file an application for hearing to obtain authority to plug any well identified in Exhibit "A" and forfeit the applicable financial assurance if the well poses an immediate environmental threat.

Done at Santa Fe, New Mexico this 12 day of October, 2011
