| | <input type="checkbox"/> Change Plans | <input type="checkbox"/> Plug and Abandon | <input type="checkbox"/> Temporarily Abandon | |
| | <input type="checkbox"/> Convert to Injection | <input type="checkbox"/> Plug Back | <input type="checkbox"/> Water Disposal | |

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

The attached well list was referenced in the BLM Notice of Written Order 12RH17W. Cano Petro of NM requests permission to Temporarily Abandon these wells, with the intent of utilizing the wells in the future. More specifically, the company anticipates using the wells in the Cato San Andres Unit as producers, injectors, or monitoring wells for the existing waterflood, or in an expansion of the existing waterflood.

A 4" x 2" swage, and 2" ball valve will be installed at the wellhead as sufficient capping of each shut-in well in the attached list. The wells are expected to be used as future utility wells in the Cato San Andres Unit; more specifically, as producers, injectors, or monitoring wells in the existing waterflood, or in an expansion of the existing waterflood. The necessary equipment was ordered in early January, but was found to be faulty when delivered. The equipment was returned to the supplier, and new equipment is expected to be delivered, and installed prior to the deadline of January 31, 2012.

ACCEPTED
APPROVED FOR 3 MONTH PERIOD

The attached well list was referenced in the BLM Notice of Written Order 12RH18W. Cano Petro of NM submitted a Sundry Notice on 01-24-12 of intent to properly cap the referenced wells. As of the date of this notice, Cano has not received a response from the BLM regarding the plan for capping these wells. The NOW order provided that the corrective action be completed by 01-31-12. Without approval from the BLM, this date of corrective action cannot be met, and therefore, an extension of the deadline for corrective action is requested. The well list pertaining to this issue is attached.
