13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

2-25-12 Hoptoit State Com #2 was TD at 9126' with a 6-1/8" wellbore. The 7" casing shoe was set at 8057' leaving 1069' of open hole. Upon evaluation of the Abo/Wolfcamp formations, COG found the reservoir to be uneconomical. Prior to the drilling rig moving, we pumped 300sx of cement plugging back the open hole and overlapping inside the 7" by 70ft (PBSD 7987' was tagged).

We would like to plug back and test opportunities in the San Andres formation. We will plug back as follows: We will circulate well bore with 9.5 lb/gal mud laden fluid from 7987 to 5500ft. We will set CIBP at 5600' & dump 35' of cement on plug.
The plug back process was verbally suggested by OCD representative.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☒, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
