13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

This SWD takes water on a vacuum. In advance of scheduled MIT test found annulus on a vacuum. Attempted to load casing with 50 bbls of produced water – would not fill. Shut down injection and all production in the field pending workover. Locate WSU and move-in over the weekend. Prepared to pull tubing and packer to locate problem. Called Sylvia Dickey with OCD-Hobbs to alert her of the situation and to defer the scheduled MIT test of 5-30-12 until the workover is completed.

Condition of Approval: notify

OCD Hobbs office 24 hours

prior of running MIT Test & Chart

The Oil Conservation Division

MUST BE NOTIFIED 24 Hours

Rig Release Date:

Prior to the beginning of operations
