13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

In response to your denial of Sundry Notice dated 8-03-12, Metering and Testing Company has agreed to change out the two pen recorder for a three pen recorder to allow for the recording of the flowing gas temperature. The fluid totalizer can be password protected to prevent any resetting during the test.

Please advise as to whether BLM will accept the above-referenced modifications in order that testing can proceed.

Notify BLM 24 hours prior to starting test.
