13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This well was plugged on 10/22/07. An onsite inspection was conducted on 9/26/11 and Echo received a Notice of Written Order to clean up tash and debris and to restore the soils and vegetation in the old pit area since previous reseeding was not effective.

The trash and debris was cleaned up immediately, but it was agreed that the restoration and reseeding would not be done until May or June of 2012 to facilitate vegetation growth. The restoration was completed 6/19 - 21/12 by capping the affected area with 1' caliche and then adding 1' of top soil. This area was then reseeded 7/9/12.
