13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Siana Operating respectfully request 60 days extension to complete the approved plugging operation on the subject Triple A Federal #1. We have run in to problems getting the correct working interest owners contacted and in line with plugging the well. We have hire Veritas 321 Energy Partners to research the records on this old inactive well and to come up with a definitive working interest owner list which they believe should be completed in the next few days. We have contracted with BCM & Associates to plug the well as soon as possible after we get the working interst setteled. The P&A procedure with changes was approved on 7-13-2012.
