Form C-144 CLEZ Revised August 1, 2011

For closed-loop systems that only use above ground steel tanks or haul-off bins and propose to implement waste removal for closure, submit to the appropriate NMOCD District Office.

Closed-Loop System Permit or Closure Plan Application

(that only use above ground steel ta	nks or h	haul-off	bins and	propose to in	iplement wast	e removal fe	or closure
				. 🗆			•

Type of action: 🖊 Permit 🔲 Closure

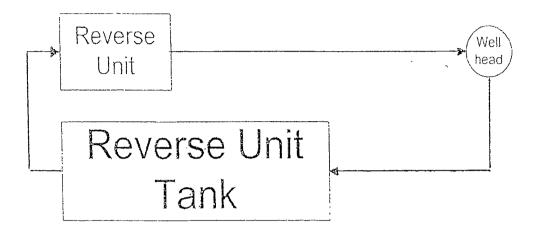

Instructions: Please submit one application (Form C-144 CLEZ) per individual closed-loop system request. For any application request other than for a closed-loop system that only use above ground steel tanks or haul-off bins and propose to implement waste removal for closure, please submit a Form C-144.

Please be advised that approval of this request does not relieve the operator of liability should operations result in pollution of surface water, ground water or the

vironment. Nor does approval relieve the operator of its responsibility to comply with any other applicable governmental authority's rules, regulations or ordinances

CHEVRON -REVERSE UNIT - SCHEMATIC - OPERATING AND MAINTENANCE - CLOSURE PLAN

Notes:

- 1. This is a generic layout, exact equipment orientation will vary from location to location.
- 2. This is a schematic representation, so drawing is not to scale.

Operating and Maintenance Plan

- i. All recovered fluids and solids will be discharged into reverse tank.
- 2 Reverse tank will be continuously monitored by designated rig crew so that tank will not be overfilled.
- 3 Rig crew will visually inspect fluid integrity of reverse tank on a daily basis.
- 4. Documentation of visual inspection of reverse tank will be captured on daily completion morning report

Closure Plan

- 1. All recovered fluids and solids will be icmoved from reverse tank and hauled off of site
- 2. All recovered fluids and solids will be disposed of at a suitable off-location waste disposul facility
