13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Cimarex Energy respectfully request approval to build a battery at the Red Tank Federal #1 well. This will be the first well drilled on the lease and the battery will be constructed after completion of the well. The surface use plan indicated laying 945' of flowline & Eline to the Red Tank 4 Fed #2 battery which is not applicable upon approval to construct battery as requested.

Please see attached production facilities layout diagram for your approval.
