☐ Water Disposal

☐ Well Shut-Off

☐ Well Integrity

☒ Other

Add Information

13 Describe Proposed or Completed Operation. Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat, in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

RE: Denied FAN sundry dated 6-26-10

Additional reclamation work requested has been completed.

Yates will continue to monitor until BLM objectives have been met. A Final Abandonment Notice will be re-submitted when the potential for successful revegetation is established.

14 I hereby certify that the foregoing is true and correct
