13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations measured and true vertical depths of all pertinent layers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

It is requested that the subject well be approved for temporarily abandon status. This well is uneconomic to produce however it is possible for the well to be used in a future secondary recovery operation. On 5/10/05 a BP was set at 3425'. Packer fluid was circulated down casing. Pressure teted casing to 500 psi for 30 mins. Tested good. Test witnessed by Patricia Hatchings.
