Remarks:

The reserve pits were not built to your APD reserve pit construction standards nor were they built to your APD special drilling stipulations. On June 14, 2004 a construction start was called into me by Donald of Praydon construction he was told then the V-Door was to be West the pits South. The pits are not entirely in cut material as stated in your APD nor built as ask for, there for (1) remove all cutting from pits and location and haul to an approved disposal site (2) Deep bruy pit contents on south side of location by digging a pit large enough to hold the pit contents, and lining the new pit area with 12 mil plastic liner and then place a 20 mil plastic umbrella over the cuttings then placing 3 feet of clean soil over the umbrella. Give Paul Evans at the Carlsbad Field Office at least 3 working day notice before any and all work begins. (505) 234-5977
