Title:

Approval Date:

Expiration Date:

Conditions of Approval:

Attached ☐

This well was originally approved for drilling on 6/13/05 (API No. 30-025-37293). The surface location had to be moved approximately 6' due to problems with the conductor pipe. The surface location was re-staked and the well has been re-numbered as "11-Y".

Additional Comments:

The 8-5/8" intermediate casing will be 24#/ft from surface to 2000', and 32#/ft from 2000' to 2650'.

The BOP for this well will include an annular, a double ram (pipe & blind), and a rotating head. The annular and ram will be tested to 1000 psi after setting surface casing and to 2000 psi after setting intermediate casing.

The well will be drilled with open pits.
