Form 3160-5 (August 1999)			
	UNITED STATES ARTMENT OF THE INTE EAU OF LAND MANGEN		FORM APPROVED OMB No. 1004-0135 Expires November 30, 2000
SUNDRY N	OTICES AND REPORTS form for proposals to drill	ON WELLS	5. Lease Serial No. NMSF 078138A
Abandoned well.	Use Form 3160-3 (APD) fo	pr such proposals.	6. If Indian, Allottee or tribe Name
SUBMIT IN TRIPLIC	CATE - Other instr	uctions on reverse side	7. If Unit or CA/Agreement, Name and/or No.
1. Type of Well		ANUNU FARMIGNI	8. Well Name and No.
Oil Well	Gas Well 🛛 🛄 Other	S III S	STOREY B 1M
2. Name of Operator		5 0 Me 4005	3 9. API Well No.
BP AMERICA PRODUCTION C	OMPANY	6 96,26	
3a. Address PO BOX 3092 HOUSTON, TX 7		o (include drea code) Or	5/ 10. Field and Pool, or Exploratory Area BASIN DAKOTA & BLANCO MESAVERDE
4. Location of Well (Footage, Se 720' FSL & 1735' FEL; SEC 11			11. County or Parish, State SAN JUAN, NM
12. CHE	CK APPROPRIATE BOX(	ES) TO INDICATE NATURE OR N	IOTICE, REPORT, OR OTHER DATA
TYPE OF SUBMISSION		туре о	OF ACTION
<b>—</b>	Acidize	Deepen 🛄 1	Production (Start/Resume) 📮 Water shut-Off
Notice of Intent	Alter Casing	Fracture Treat	Reclamation Well Integrity
	Casing Repair	New Construction	Recomplete Dther Chng Csg Depths
Subsequent Report	Change Plans	Plug and Abandon	Water Disposal
Final Abandonment Notice	Convert to Injection	Plug Back	

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.

Request to change well bore from directional to vertical was approved 5/31/05

BP respectfully requests BLM approval to change casing depths and cement program due to well being on the edge of the Cliffhouse waterline. (Offset wells have set intermediate pipe through the Mesaverde formation) Please see the attached drilling program and cement report.

## **Cementing Program**

Centralizers, every 4th joint in mud drilled holes, none in air drilled holes.

1 Top Rubber Plug

.

1 Thread Lock Compound

.
