13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Subject well was plugged and abandoned as of 6/18/2003 (see attached)

ConocoPhillips received letter dated 2/10/2004 stating that the final abandonment requirement of 20% vegetative growth must be established. ConocoPhillips submits that this has happened and would like this well cleared out and entered as a well that has been plugged and abandoned, not in TA status.

Ladies and Gentlemen:

On January 29, 2004, Bureau of Land Management (BLM) completed a field examination of the abandoned Meyer B-4 #25 located 2180 FSL & 1980 FWL in Section 4, T. 21 S., R 36 E., Lea County, New Mexico.

All final abandonment requirements have been met except for vegetative growth (20%) established evenly across the location. BLM will continue to monitor the surface restoration of this abandoned well site. All final abandonment requirements will have been met when BLM is confident that the disturbed surfaces are capable of being restored to a condition similar to their original state.

If there are any questions please call Becky Hunt, Environmental Protection Specialist, at (505) 234-5995.

Sincerely,

James Amos
Supervisory Petroleum Engineering Technician
