FOR YOUR RECORDS: The following was submitted to NMOCD regarding this injection well.

During our recent attempt to run a MIT test the pressure dropped from 500 - 450 in 30 minutes, resulting in a failed test. Breck Operating Corp. is in the process of designing a squeeze job for this well and we are also preparing AFE's to send to all the Working Interest Owners regarding the proposed work. We will submit the proposed procedure for NMOCD approval as soon as we receive the approved AFE's (approximately 30-45 days).
