Mar Oil and Gas Corp connected the well to production flow line to monitor surface pressures.

Mar Oil and Gas Corp acquired this property with few well files and no logs and still locating logs. A prelim engineering study has indicated infield drilling down spacing to 20 acres. To complete the engineering study Mar Oil and Gas Corp is requesting a 12 month extension. At that time Mar Oil and Gas Corp will return well to active status or plug the well.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
