If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-1 must be filed on testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

10/17/12 - Hole came in on bottom of Oil Tank. Released 160 bbls of fluid. We lost around 60 bbls and recovered 100 bbls of fluid. The fluid was contained within the firewalls. The Owner of the lease is the Smith Ranch. Since the water table is low, it was never compromised. Talon is going to take over the clean-up. The widest point of the spill is around 50' X 40' the rest is around 10' X 15'.
