LETTER OF VIOLATION - Inspection

Dear Operator:

The following inspection(s) indicate that the well, equipment, location or operational status of the well(s) failed to meet standards of the New Mexico Oil Conservation Division as described in the detail section below. To comply with standards imposed by Rules and Regulations of the Division, corrective action must be taken immediately and the situation brought into compliance. The detail section indicates preliminary findings and/or probable nature of the violation. This determination is based on an inspection of your well or facility by an inspector employed by the Oil Conservation Division on the date(s) indicated.

Please notify the proper district office of the Division, in writing, of the date corrective actions are scheduled to be made so that arrangements can be made to reinspect the well and/or facility.

INSPECTION DETAIL SECTION

In the event that a satisfactory response is not received to this letter of direction by the "Corrective Action Due By:" date shown above, further enforcement will occur. Such enforcement may include this office applying to the Division for an order summoning you to a hearing before a Division Examiner in Santa Fe to show cause why you should not be ordered to permanently plug and abandon this well.

Sincerely,

COMPLIANCE OFFICER

Hobbs OCD District Office

GENERAL INSPECTION NOTES:

Other areas of concern noted during today's field inspection include numerous leaking gear boxes, chemical drums with no labeling, open chemical drums with holes, uncovered containment pans with oil and a dead bird, illegible signs, and other miscellaneous debris scattered around the locations. The leaking gear boxes and chemical drums represent a potential environmental hazard. These issues violate a number of OCD's rules and regulations and should be addressed immediately.
