	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	Reclamation

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the bond No. on file with the BLM / BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Reference: Letter 3162.4 (NM-080) Dated January 23rd, 2013
Actual location size: 277x228, APD drawing 270x235, ADP downsize 175x150; Actual downsize: 232x190. The APD downsize plat showed taking 95' off of the north and 85' off of the east. Due to wellbore, size of location and anchor placement the following measurements were taken. 45' from the north and 35' from the west. The east side would have been 45-47' inside the anchors. Therefore the APD Plat could not be met, this location was downsized before the request of variance was required.

Please review the attached documentation for approval. The location will still need to be reseeded, but will be done during monsoon season.

14. I hereby certify that the following is true and correct	
Name Natalie Gladden	Title Sr. Environmental Tech
Signature <i>Natalie Gladden</i>	Date 2/11/13
