13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

ConocoPhillips Company respectfully requests approval to change plans for this well. This change was discussed with BLM Natural Resource Specialist Trishia Bad Bear on March 19, 2013.

This well is being co-located/twinned with another well pad Ruby Federal #3. Initially, COPC expected the existing road would be sufficient to provide access. However, approximately 125' of road is needed to provide access to this well location. The existing road to Ruby Federal #3 will be reclaimed following construction of the access road to Ruby Federal #51. The road for Ruby Federal #51 will provide long term access to both well locations.

Please see the attached diagram for specific details.

OK CRL 04/12/13

14. I hereby certify that the foregoing is true and correct.
