13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

OXY USA WTP LP respectfully requests a 1 year extension on the temporary abandonment of this well for further evaluation of the waterflood unit. OXY is in the process of submitting drilling permits to carry out a project that includes revitalizing the northern portion of the unit and testing potential in the southern portion of the unit. The project entails drilling 4 new wells in 2013 and the APDs for these are currently being prepared. These wells will decrease the primary production spacing from 40 acre to 20 acre spacing. Along with the newly drilled well, the wells in the immediately surrounding area will be worked over. There will be 5 producing wells re-stimulated with more appropriate completions for the reservoir and 5 injection wells will be cleaned out and stimulated to ensure sufficient flooding. In the South portion of the field, Oxy has identified 4 test wells to recompleat in new zones and evaluate the potential of the inactive portion of the field. From the results of the project, Oxy will evaluate and determine the potential reactivation of this well.

TD- 3982' PBTD- 3706' Perfs- 3756-3836' CIBP- 3706'

1. Notified NMOCD of casing integrity test 24hrs in advance.

2. RU pump truck 6/13/13, circulate well with treated water, pressure test casing to 520 # for 30 min.

This Approval of Temporary Abandonment Expires 6-29-2014
