13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Due to high line pressure, Chevron intends to add temporary 3 phase separator (denoted by blue square) to bypass the HT (denoted by the big X as bypassed). Once the line pressure is back to normal, we will remove the temporary separator and use existing facility like before. Expected duration of temporary solution is six (6) months.

Please find attached, the intended schematic.

This intent is "for information only".

Any questions should be directed to Ruben Kopara, Facilities Engineer, Chevron, at 432-687-7215.

14. I hereby certify that the foregoing is true and correct. Name (Printed/Typed)  
DENISE PINKERTON
