13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Sahara Operating Company respectfully requests approval of Temporarily Abandoned status for a 3 month period. We intend to return the subject well to active injector status, but require the 3 month time to survey and obtain Right-Of-Way across Federal and State lands so that a new surface injection line may be laid. The Survey has already been ordered and a Right-Of Way Agent (Myra Harrison) retained for the work.

This well recently (10-22-2013) passed an MIT test. Returning it to active status will provide injection support for nearby producing wells.

This well is currently subject to an ACOI, and approval of TA status for this short term will allow Sahara to comply with the ACOI while working to return the well to injection.

Wellbore Configuration: Casing: 4-1/2" @ 4750'
 Perfs: 4590'-4592'; 4595-4604'; 4626-4636'
 CIBP: 4405', set and approved 1987

3 MONTH EXT !

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines , a general permit or an (attached) alternative OCD-approved plan .
