Remarks:

Field inspection identified African Rue on the pad and old reserve pit. Address the African Rue by 5/1/13. Also round pit plastic and cement surfacing on the old pit. The pit overall is not doing bad. Suggest removing the plastic and placing some topsoil on top of the cement impacted areas only and seed with BLM #4 seed mix. The African Rue needs attention soon, the old area we can go out to 7/1/13 just before the monsoons.
