13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Nearburg Producing respectfully requests approval of the attached multi well Rig Layout Diagram and Production Facilities Diagram.

A sundry submission on 8/30/13 included the above two diagrams that were not clear in regards to size of pad. The BLM has approved the pad size as 190' on four (4) sides and 150' between well. This pad size is acceptable and a change is not necessary. The two diagrams attached depict the size of the pad as approved by the BLM.

No other changes to be made to pad.

OK Surface Legend 12-6-2013 Original Conditions of Approval Apply.

14. I hereby certify that the foregoing is true and correct.

Electronic Submission #227673 verified by the BLM Well Information System
For NEARBURG PRODUCING COMPANY, sent to the Hobbs
Committed to AFMSS for processing by JOHNNY DICKERSON on 11/25/2013 ()
