HOBBS OCD

JAN 28 2014

RECEIVED

Attn: Regulatory and Compliance

Dear Operator:

The Hobbs OCD District I Office has received C103 subsequent reports on the above referenced wells, in response to violation letter submitted by Mark Whitaker on September 19, 2013.

As noted on the sundry reports dated January 9, 2014, the description states that the tubing has been repaired, on each well. However, there is not a current wellbore schematic, (after repairs) or a detailed description as to packer setting depths or amount of tubing repaired or replaced.

The OCD respectfully requests that this additional information be submitted to the OCD Hobbs District I Office by February 18, 2014. Please also include any pertinent wellbore changes that apply.

Once the above has been received, record of approval will be placed online in the wellfile.

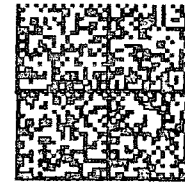

If you have any questions, please contact Sylvia A. Dickey @ 575-370-3188 or 575-393-6161 x112.

Sincerely,

SYLVIA A. DICKEY
Compliance Officer
Hobbs OCD District I
