13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

During this process we plan to use the closed loop system with a steel tank & haul to the required disposal per the OCD Rule 19.15.17.

CHEVRON U.S.A. INC. requests a two year extension to the TA status for the subject well. The TA status expired 3/20/14.

We are anticipating a drilling package in 2015, expanding development in the WDDU and we will need injection support for these wells when they are completed. For this reason, we need to preserve TA status of this well so that we can re-activate it to provide injection support to the new producers.
