13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Cimarex Energy Co. respectfully requests approval of the attached rig layout change.

The access road is located 165' North of the wellbore. The APD approved rig layout would have the road run across the frac pad.

Cimarex proposes to build the frac pad in the NW corner going West in order to avoid the road.

Cimarex is currently on location building the well pad and seeks a quick approval.

Surface OK - see original COAs attached to APD. JR 4/23/14

14. I hereby certify that the foregoing is true and correct.
