Legacy Reserves requests temporary abandonment status on the subject well for a period of 2 years.

This should allow time necessary to evaluate the producing potential of a new drill well which was recently permitted by Rubicon Oil & Gas, LLC, the Draw State #1 (API 30-025-41906) located just north of our Newman 32 State #1 in Sec 29, T-23-S, R-38-E. This new drill is permitted to 8100' with a target formation being the Abo formation.

With this TA approval we intend on pulling and laying down all production equipment, setting a CIBP within 100' of the top Ellenburger perforation, loading the casing with packer fluid and testing the casing to 500# to verify mechanical integrity.
