13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

All reclamation work has been completed and all final abandonment requirements have been met. This location is ready for Final Abandonment.

It is our understanding the BLM will continue to monitor the surface restoration, vegetative growth to 20% of this abandoned well site, until evenly established across the location and restored to a condition similar to its original state.

Lea County, New Mexico

Ladies and Gentlemen:

On December 9, 2008, the Bureau of Land Management (BLM) completed a field examination of the referenced abandoned well. All final abandonment requirements have been met except for vegetative growth (20%) established evenly across the location. The BLM will continue to monitor the surface restoration of the referenced well location. All final abandonment requirements will have been met when the BLM is confident that the disturbed surfaces are capable of being restored to a condition similar to their original state.

Contact Jim Amos, Supervisory Environmental Protection Specialist, at (505) 234-5909 if you have any questions.

Sincerely,
