13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

ConocoPhillips Company request permission to place a new surface water transfer line from the SEMU BMT Battery (located in the SWSW of Section 20, T20S, R38E) to the McKee Waterflood (located in the SWSW of Section 20, T20S, R38E).

The new pipeline will be a 2 1/2" surface Flex pipeline approximately 725ft in length. The pipeline will have an operating pressure of approximately 7-70 PSI with a flowrate of 300 BFPD.

The pipeline route will follow existing road corridors to keep surface disturbance to a minimum. The new pipeline route will also assist ConocoPhillips Company personnel in detecting possible leaks on the pipeline as soon as they occur.

Construction will begin as soon as BLM Approval Notification has been received. Preferred start

14. I hereby certify that the foregoing is true and correct.
