	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

MOC has an approved APD for the subject well. MOC would like to make changes to the site facility and interim reclamation area. MOC has approval to install a gas line and water line in the APD. MOC would like to make the gas line a flowline and have the battery be at MOC's Red Hills West 22 Fed #1H well site (existing battery). The gas line will become the flowline & the water line will become the return gas line from the battery to the well for gas lift purposes. This will allow for more interim reclamation. Please see new facility diagram & flowline & water line routes attached & call Bradley Bishop with any questions.

14. I hereby certify that the foregoing is true and correct.	
Electronic Submission #253586 verified by the BLM Well Information System For MEWBOURNE OIL COMPANY, sent to the Hobbs Committed to AFMSS for processing by LINDA DENNISTON on 08/15/2014 (14LD0320SE)
