	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Devon Energy received a verbal work authorization from Indra Dahal on 3/30/15 to move the topsoil location from the North side of the pad (shown on the original C-102) to the East side of the pad (shown on attached Interim Reclamation Diagram). The move is due to the Vessels being on the North side where the original Topsoil was located. Since the reclamation will take place on the East and South, we would like to move the topsoil to the East.

14. I hereby certify that the foregoing is true and correct.

**Electronic Submission #296703 verified by the BLM Well Information System  
For DEVON ENERGY PRODUCTION CO LP, sent to the Hobbs  
Committed to AFMSS for processing by JIM AMOS on 03/31/2015 (15JA0099SE)**
