13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

On October 21, 2010, Hunt Cimarron LP filed a request to place this well in TA status pending evaluation of a posible completion attempt. On November 7, 2011, we received approval of this TA request indicating that the request was approved only through April 10, 2011, approximately 7 months prior to our receipt. On November 14, 2011, we received Notice of Written Order number 12RH14W requesting that the well be placed into production or plugged.

Hunt Cimarron is currently completing additional sample analysis in order to target a completion attempt in the Glorieta-Yeso section. Therefore, we respectfully request an extension to our TA status in order to be able to conduct this completion attempt.
