Amendment to Sundry Notice filed 10-18-05:

DHC Order No. HOB-117A

6660: Blinebry Oil & Gas Pool (oil): Well is perforated @ 5996-6433'; well bore diagram attached.

87085: East Warren-Tubb Pool: Knock out bridge plug @ 6475' above Tubb perforations @ 6528-6778'.

63120: East Warren-Drinkard Pool: Knock out bridge plug @ 7200' above perforations @ 7260-7519'.

Ownership is the same in the Tubb/Drinkard and for the Blinebry, although notification by Sundry Notice was sent to all ownership effective 10-18-05.

Proposed Allocation based on historical and current data: Blinebry - oil: 64%; gas: 36%; water: 74%. Tubb - oil: 9%; gas: 45%; water: 17%. Drinkard/Abo - oil: 27%; gas: 19%; water: 9%. This commingling will not lessen the value of this well, but will maximize production and prevent waste.

Filed to delete "Allocation will be based on 160 acres for Blinebry as per Order No. R-10986..." - this order is for Well #1 and I should have deleted this sentence from the Sundry Notice for Well #2. All pools listed above are 40 acres.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines X, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
