Approval via Sundry Notice to change the surface casing setting depth to 400' and to complete the well to a TD of 4700' was granted on December 30, 2005. Once drilling operations commenced, it was determined that a new target, the Paddock, at a depth of 6000', would be drilled to. Presently surface casing is set at 400' and cemented to surface. Verbal approval to continue drilling to the Paddock was obtained from Mr. Gary Wink January 18, 2006. As agreed upon, 5.5" production casing will be set at a TD of approximately 6000' and will be cemented to surface with approximately 1200' sacks of cement. A new Form C-102 covering the Paddock is attached.
