13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent data including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Approval to drill this well to the San Andres was acquired on 1/19/2006. At this time, Marathon Oil Company requests approval to extend the TD from 5000' to 6000' so that the Paddock can be tested. With this change, the 8.625" surface casing will be extended 1250' and cemented with 750 sacks and the 5.5" production will be extended to 6000' and cemented with a lead slurry of 700 sacks of Interfill C, yield 2.52, 11.8 ppg.wt. The tail slurry will consist of 600 sacks of Premium with Super CBL with a yield of 1.19 at 15.6 ppg wt. Cement for both strings will be circulated to surface.

a C-102 (Paddock) is enclosed for adding the Paddock to this well bore.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☐ , a general permit ☐ or an (attached) alternative OCD-approved plan ☐
