13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-5 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

In answer to the Notice of Incidents of Non Compliance dated 12/14/05, we are requesting the following:

This well is planned for reactivation in the Spring of 2006 as part of a new horizontal drilling project that Prime will be conducting with the Department of Energy. Prime requests an extension of the reactivation deadline for 6 months to allow Prime and the DOE to make the necessary preparations for the work. If necessary, Prime is willing to conduct a casing integrity test of the well within the next thirty days under BLM direction to confirm that no harm is occurring from the well being shut in awaiting the initiation of the DOE project.

If a casing integrity test is required, Prime proposes to run a packer on tubing into the well. The packer will be set 50' above the uppermost perforation and a bradenhead test conducted at a pressure of 500 psi.

Failure to comply with authorized officer to place well back on production or plug and abandon. NOI for TA approval was denied 11/07/05 per D. Glass. Submit to this office by 5/31/06, on a Sundry Notice (3160-5) a Notice of Intent to place well back on production or plugging plans. Failure to comply will result in monetary assessments.

14. I hereby certify that the foregoing is true and correct
