13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

ConocoPhillips respectfully requests to change the surface casing (~~42-74~~) depth to <sup>850'</sup> 1,000' instead of 660' (as approved on NOI 11/10/15). The reason for this depth is to case off the weak zone prior to drilling out with 10.0 ppg brine and mitigate losses during drilling and cementing.

The above well is planned to spud 11/25/15.

14. I hereby certify that the foregoing is true and correct.
