13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

MOC would like to make changes to the reclaimed area and site facility diagram. The battery site is approved to be on the south edge of this pad. MOC has permitted the RHWU #010H to be 65' east of the RHWU #007H. The battery will be on the v-door side of the drilling rig for the RHWU #010H. MOC would like to move the battery to the West edge of the location so that the RHWU #010H can be drilled without moving the battery and shutting in the RHWU #007H. Please see attached diagram of the battery site & reclaimed area. Call Bradley Bishop w/ any questions.

14. I hereby certify that the foregoing is true and correct.
