Re: Request for exception to Rule 107 J
Tubingless Completion
Dragon 36 State 705H

EOG Resources, Inc. requests an exception to NMOCD Rule 107 J regarding required production tubing. EOG requests a tubingless completion for our Dragon 36 State 705H to allow greater flowback after frac stimulation.

Our plan is to install production tubing as soon as flow decreases, which should occur within 6 months.

Thank you for your consideration of this request. If additional information is needed, please contact me at 432 686-3689.

Sincerely,

EOG Resources, Inc.

A handwritten signature in black ink that reads "Stan Wagner". The signature is fluid and cursive, with a long horizontal stroke extending to the right.
