The original plan was to drill this well with the surface location 660' FWL and the bottom hole location 330' FWL. We would like to change the plan and have the bottom hole location also 660' FWL. This will make the surface location 10' FNL and 660' FWL and the BHL 330' FSL and 660' FWL. I have attached a new C-102 showing this change.

We plan to spud this well 01/28/2016.
