OTHER: <input type="checkbox"/>		<input checked="" type="checkbox"/> Location is ready for OCD inspection after P&A	

- All pits have been remediated in compliance with OCD rules and the terms of the Operator's pit permit and closure plan.
- Rat hole and cellar have been filled and leveled. Cathodic protection holes have been properly abandoned.
- A steel marker at least 4" in diameter and at least 4' above ground level has been set in concrete. It shows the

OPERATOR NAME, LEASE NAME, WELL NUMBER, API NUMBER, QUARTER/QUARTER LOCATION OR UNIT LETTER, SECTION, TOWNSHIP, AND RANGE. ALL INFORMATION HAS BEEN WELDED OR PERMANENTLY STAMPED ON THE MARKER'S SURFACE.

- The location has been leveled as nearly as possible to original ground contour and has been cleared of all junk, trash, flow lines and other production equipment.
- Anchors, dead men, tie downs and risers have been cut off at least two feet below ground level.
- If this is a one-well lease or last remaining well on lease, the battery and pit location(s) have been remediated in compliance with OCD rules and the terms of the Operator's pit permit and closure plan. All flow lines, production equipment and junk have been removed from lease and well location.
- All metal bolts and other materials have been removed. Portable bases have been removed. (Poured onsite concrete bases do not have to be removed.)
- All other environmental concerns have been addressed as per OCD rules.
- Pipelines and flow lines have been abandoned in accordance with 19.15.35.10 NMAC. All fluids have been removed from non-retrieved flow lines and pipelines.
- If this is a one-well lease or last remaining well on lease: all electrical service poles and lines have been removed from lease and well location, except for utility's distribution infrastructure.

Attachments: RE: State 8-6 power pole

Mr. Whitaker,

Here is my emailed request to Mr. Chrisman at Lea County Electric to remove the one power pole at the State 8-6 well. We are including a copy of the request with our form C-103.

Thanks,

David Zerger

Subject: RE: State 8-6 power pole

Mr. Chrisman,

Cody, our foreman, went out and checked the tag on the pole and meter that need to be removed. The tag # on the pole is 047106. The meter # is 40549. We would like this pole and meter removed. Obviously, we want to maintain service to our other two producing wells (8-8 and 8-4) and to the tank battery. If removing pole #047106 and meter # 40549 is going to cause problems with service to the other wells for some reason, let us know. Cody's number is 575-200-5633. Please let him know when you are planning to be out there.

I called the Lea County Electric. As suspected it is their pole. To get it removed, I need to send them an email to request that it be taken down and that the meter be disconnected. Before I do, I wanted to double check that we are all talking about the same pole and meter. They said the pole should have an aluminum tag w/ the number 047121 on it. The meter # is 59920. Could you please have someone verify the pole number and meter number?

Thanks,

Whitaker, Mark A, EMNRD
