13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Legacy Reserves requests approval to temporarily abandon the subject shut-in Atoka gas well.

We have future plans to recomplete this well uphole from the Atoka to the Permo-Penn or Pennsylvanian. However, we need for oil prices to improve above the current \$25-30/BO range to make this economical and for some additional time to further evaluate the geology in the area.

We plan on setting a CIBP at 12,410' and spotting a 25 sack Class H cement plug on top to abandon the Atoka perfs 12,463'-12,618'. We plan to run a MIT with pressure chart to 500 psig for 30 minutes following notification to the NMOCD.
