13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

04/05/16 Ran MIT, pressure casing to 543#, held. Well is now TA'd.

*This is the 2nd TA approved.*

Legacy's future plans on this well will involve the performance of a wellbore cleanout and acid stimulation throughout the perforated Blinbery interval 5361'-5478'. Also, we may re-perforate the previously perforated and currently cement squeezed Upper Blinbery interval 5149'-5333' during this cleanout operation. We plan to do this work in the 1st quarter of 2017, pending improved oil prices.

*PM*

We were unsuccessful in cleaning this well out on 01/16/2015 using coiled tubing and subsequently attempted to make a simple bit run cleanout on tubing on 04/01/2015. From this work we realized a more extensive cleanout procedure will be required and we TA'ed this well on 04/02/2015 by setting a CIBP at 5082' using wireline and capping with 35' of cement using wireline dump bailer.

14. I hereby certify that the foregoing is true and correct.

**Additional data for EC transaction #337847 that would not fit on the form**

**32. Additional remarks, continued**

Current low oil prices make extensive remedial work on this injection well uneconomical to perform at the present time.
