Devon Energy Production Company, L.P. respectfully requests approval to shut-in the Green Wave 20 Fed 1H for 1 year, effective 5/12/16, due to infrastructure constraints. Devon's intent is to re-establish production once infrastructure has been constructed. Devon also requests approval to remove the pumping unit from location while the well is shut in. We will plan accordingly to have a pumping unit on location and in working order prior to infrastructure tie-in date so that we can re-establish production as soon as infrastructure is available.

Approval for shut-in status as described is granted until 5/12/2017. At that time the well must have been returned to production or temporarily abandoned per BLM specifications.
