This well was plugged and abandoned on 6/2/2016 and a below ground maker was set at 32.456109394; -103.4822397. The rig was skidded over 25' and the Chiles 28 State 1Y was drilled, which is still active.

Please accept this sundry as a request to release Devon from the usual P&A reclamation as there is an active well on this location pad.

Thank you.
